

V. Partnerships

Galileo Academy has formed partnerships with:

- Crissy Field Center
- Hyde Street Pier
- National Park Service
- Presidio Trust
- US Environmental Protection Agency EPA
- National Oceanic and Atmospheric Administration NOAA

Each of these organizations contributes to the development of the academic and experiential components of this environmental science program.

What is the Galileo Science Environmental Pathway?

The Environmental Science Pathway is a two-year program for students in 11th and 12th grades that want to develop their skills in understanding, preserving and protecting the environment.

The Pathway offers unique experiences designed to support and promote the study of the environment and environmental careers.

Pathway students have opportunities to:

- Engage in weekly field trips
- Participate in internships
- Receive training in the use of state of the art scientific equipment and techniques
- Collaborate with professional scientists
- Design and present scientific research projects
- Acquire practical experience with environmental careers

All students are welcome to apply to the Environmental Science Pathway. However, the program material is challenging and space is limited (30 students per class). For an application please see:
